MEMO

TO: Common Council
FROM: Planning Department
CASE NO.: PCD-3-94
DATE: February 7, 1994
LOCATION: 333 E. Miller Dr.
PETITIONER: Public Health Nursing Assoc.

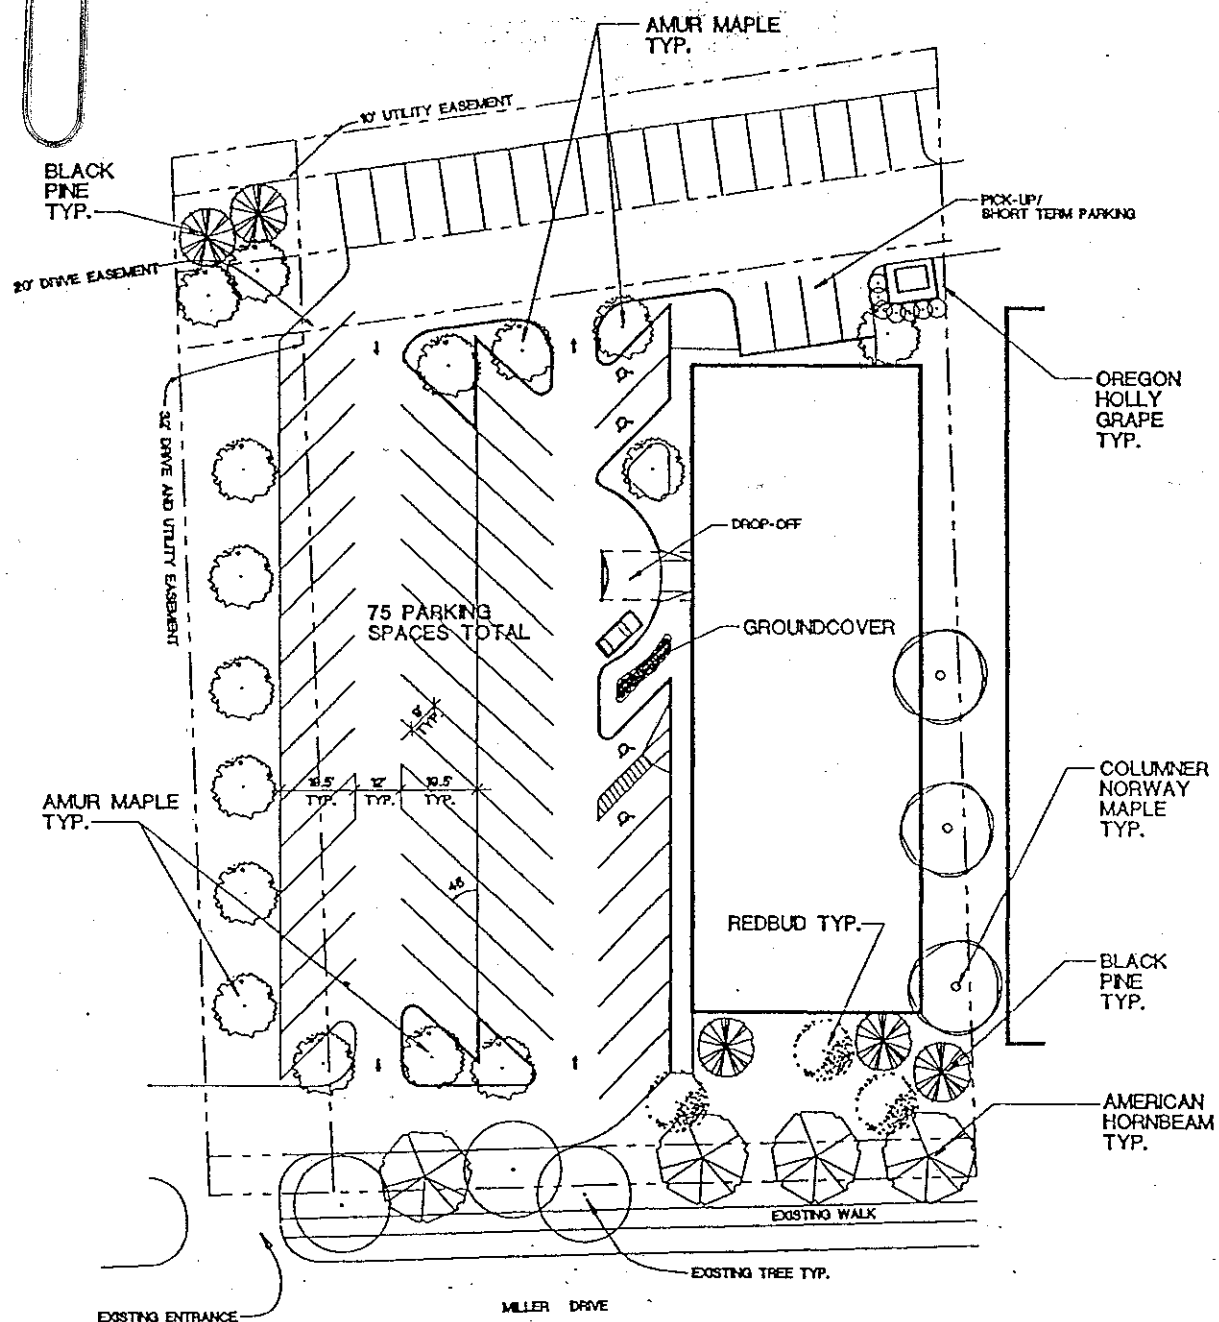

On January 31, 1994 the Bloomington Planning Department approved an outline plan amendment to the ML/PCD located at 333 E. Miller Dr. The petitioner is requesting an outline plan amendment to add "Medical Clinics and Services" to the list of approved uses so that the Public Health Nursing Assoc. can improve and occupy the building.

The property is located in an ML/PCD zoned area on the north side of Miller Dr. and west of Henderson. The property is surrounded by Black Lumber Co., a gymnastics training school, government offices and the bus yard. On this property is the building that Ace Services inhabited for several years. The building is now vacant. The outline plan approval for this ML/PCD was approved in 1985. At that time the use now requested was not anticipated, and therefore not requested. The Public Health Nursing Assoc. has placed an offer on this parcel in hopes of placing there administrative offices and clinic at this location.

The use of this building at this location for medical clinics and services appears to be acceptable. There is a need to find a location for this business which is centrally located and within easy access for people. There is bus route on Miller to provide transportation for the clients. There are established businesses on all sides of this property.

The Growth Policies Plan designates this area as "commercial". The plan acknowledges the existing commercial site. The access to this PCD has been greatly improved with the Walnut St. improvements and a bus route in front of the building.

No conditions of approval were required.

BLOOMINGTON PLAN COMMISSION
PRELIMINARY REPORT
Location: 333 E. Miller Dr.

CASE NO.: PCD-3-94
DATE: January 31, 1994

PETITIONER: Name : Public Health Nursing Assoc.
Address: P.O. Box 2267, Bloomington

COUNSEL: Name : Odle, McGuire & Shook
Address: 6765 N. S.R. 37

PRELIMINARY HEARING DATE: January 31, 1994
FINAL HEARING DATE: February 21, 1994

REQUEST: The petitioner is requesting an outline plan amendment to add " Medical Clinics and Services" to the list of approved uses, and development plan approval for the Public Health Nursing Association to improve and occupy the property located at 333 E. Miller Dr.

EXISTING USE AND DESCRIPTION: The property is located in an ML/PCD zoned area on the north side of Miller Dr. and west of Henderson. The property is surrounded by Black Lumber Co., a gymnastics training school, government offices and the bus yard. On this property is the building that Ace Hardware inhabited for several years. The building is now vacant. The outline plan approval for this ML/PCD was approved in 1985. At that time the use now requested was not anticipated, and therefore not requested. The Public Health Nursing Assoc. has placed an offer on this parcel in hopes of placing there administrative offices and clinic at this location.

The use of this building at this location for medical clinics and services appears to be acceptable. There is a need to find a location for this business which is centrally located and within easy access for people. There is a bus route on Miller to provide transportation for the clients. There are established businesses on all sides of this property.

ISSUES:

R.O.W. Dedication: R.O.W. dedication of thirty feet from the centerline of Miller was required in 1985. No additional right-of-way is required.

Access: The access will remain the same which is currently off E. Miller Dr.

Parking: The Public Health Nursing Assoc. is working to gain adequate parking for all of the clients and employees. The parking lot is being expanded to provide 75 spaces. Staff estimates this as an adequate number.

Utilities: Utilities now serve the building.

Drainage: Drainage was addressed at the time of development of the lot. Drainage may need to be reevaluated if the parking is greatly expanded.

Tree Preservation: The lot is has few trees. Three hawthorne trees and one pine tree will be preserved. Three other trees will be removed.

Landscaping: Landscaping will be upgraded and will include street trees. A plan is included in the site plan.

Architectural Compatibility: The facade of the building will change so that the building does not look like a warehouse. A second story is proposed to added to the north half of the building. This requires setback variances to the east property line.

Sidewalks: Sidewalks are already in place along Miller Dr. The internal walks will be improved to facilitate access for the clinic.

Plan Compliance: The Growth Policies Plan designates this area as "commercial". The plan acknowledges the existing commercial site. The access to this PCD has been greatly improved with the Walnut St. improvements and also has a bus route in front of the building.

Variance: Variance from landscaping along the rear property line is requested. The setback for parking is met, but there is a utility easement and no bushes or trees may be planted in these easements. This area backs onto the Black Lumber warehouses.

RECOMMENDATION: Staff recommends approval of the outline plan amendment with waiver of second hearing. Staff also recommends approval of the development plan with waiver of second hearing with the following conditions:

1) that at the time of the hearing, all supporting documents are presented, and to staff's satisfaction.
